EDUCATION

SMK WIKRAMA BOGOR
Computer network engineering | I majored in computer network engineering at SMK Wikrama Bogor
2015 - 2018

Universitas Pakuan Bogor
Computer Science | I majored in informatics and learned basic intermediate programming. Mobile Apps, Websites. and in 2023 I managed to get a computer bachelor's degree.
2018 - 2023

WORK EXPERIENCE

Full Stack Developer
CV. Piarea
08/2021 - 11/2021
On Job Traning (OJT) at PiareaThis project provides a website look that showing several animated videos made by the company and also introducing the company's products such as animation design.
Achievements/Tasks
- Create UI design and prototype for Web with Axure RP
- Develop Website for customer with React.JS and Laravel
- create backend with Laravel
- Develop Website with React.JS

IOS Developer
PhinCon
07/2023 - 09/2023
During my Bootcamp training, I successfully developed an e-commerce application using the UIKit framework in the Swift programming language. In this project, I effectively implemented the MVVM (Model-View-ViewModel) architectural pattern. Furthermore, the project is seamlessly integrated with a backend API, enabling us to dynamically retrieve essential data for our application.

SKILLS

`Flutter` `React.JS` `Laravel` `Swift` `UIKit` `JavaScript` `HTML, CSS`
